Progress Update | SPRINT - 1| APRIL 12 - 23

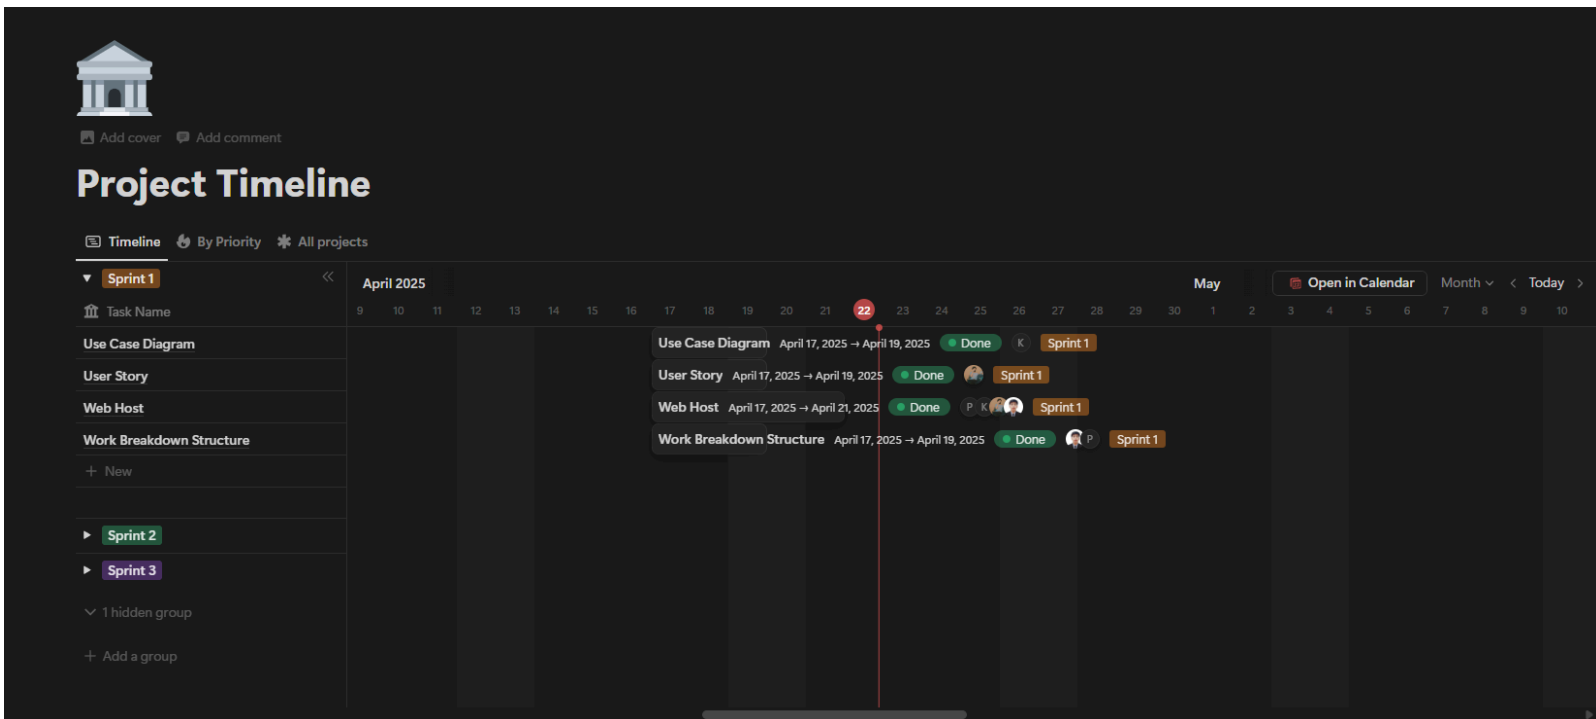

Sprint - 1 = 100%
Project Percentage Completion = 11.11%
(1/9) * 100 = 11.11%

     This sprint focuses on how we can break down the system functionalities and what are the scope and limitations of the system, and the needs and wants of the user.

SPRINT RETROSPECTIVE

What went well: On creating the Work Breakdown Structure, it went well because each of us gave our perspective.

What could be improved: Understanding each role and the parts of each other.

What needs to be done: Based on our WBS we need to identify which tech stacks are needed to our system and the architecture of it.
